hi games tower, this is voltage

rules and guidelines

- ranks read like American comics because mario is an Italian American not a Japanese person you weeb.
 - read left to right top to bottom for the ranking
 - direct all hatemail to my agent, “actionbutton” on discord
- luigi u is not a mario game
- don't like it? make your own

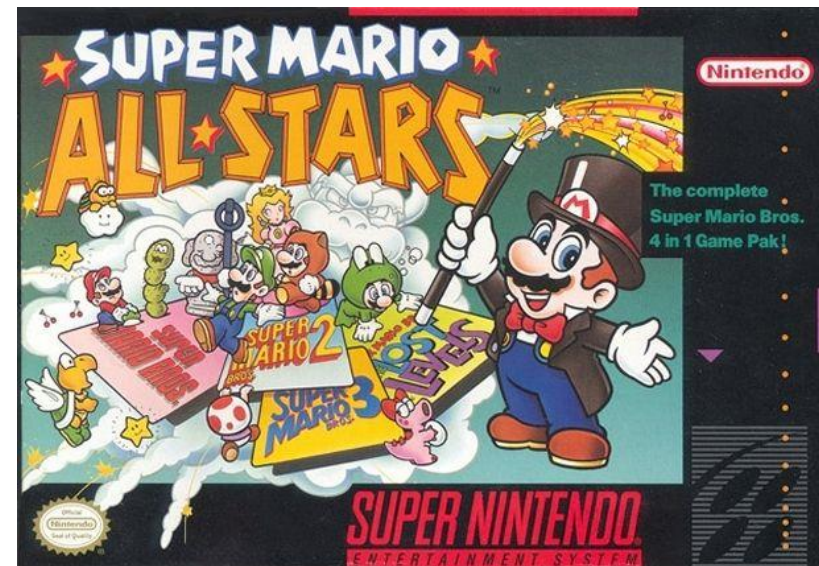

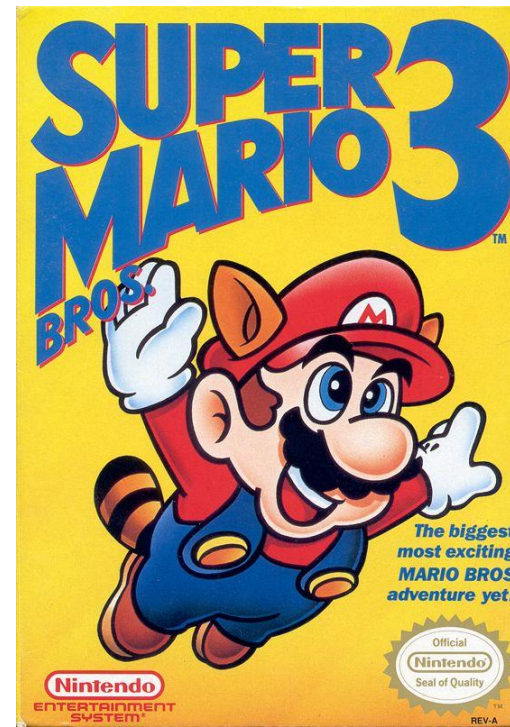

me when you reject your
creative spirit

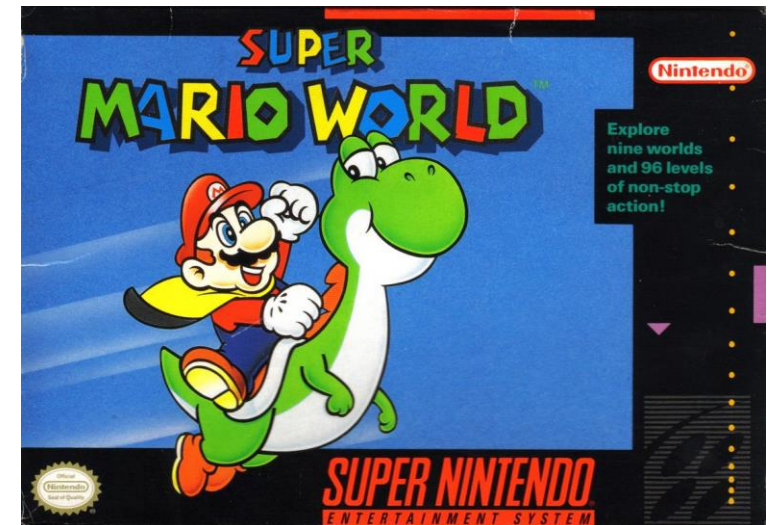

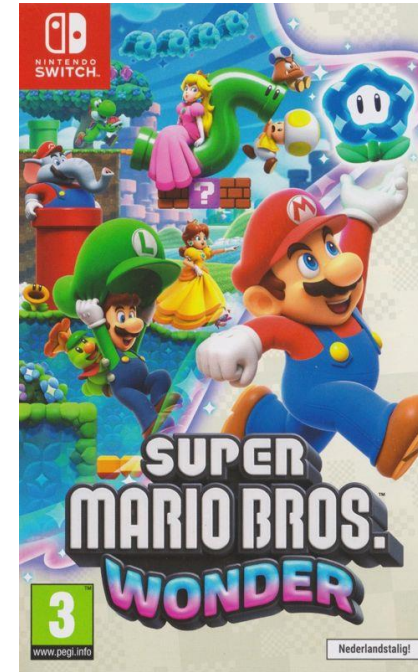

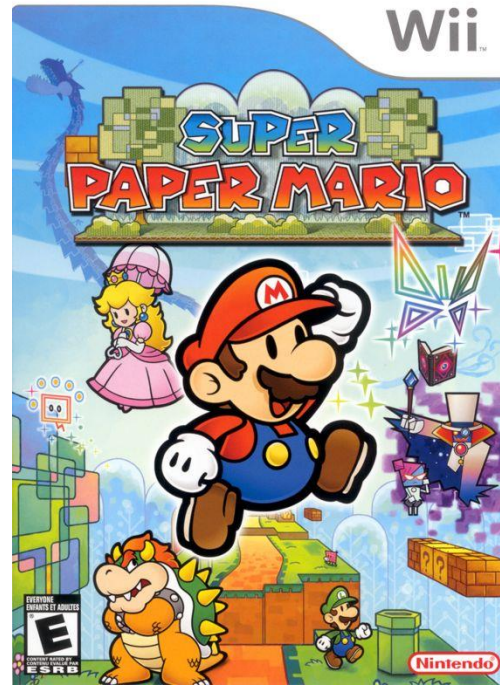

Mario 3 tier

- It's mario 3
- Super mario advance 4 (super mario bros 3) is good too because you can save for real
- Mario allstars smb3 (no flying mario so knocked down a peg)

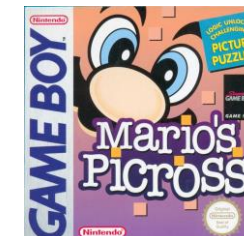

A- Tier

- These ones are good
- 2d mario games take many shapes and sizes
- Yes super paper has 3d sections, but that is the exception not the rule.

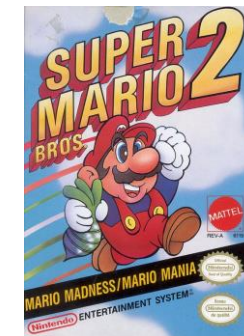

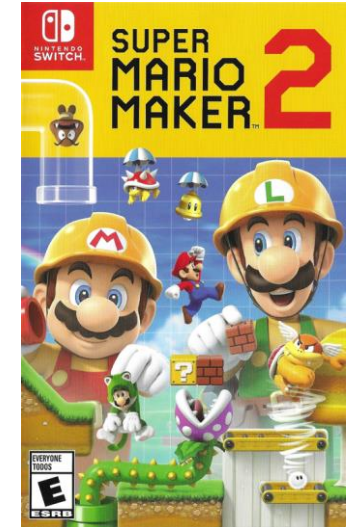

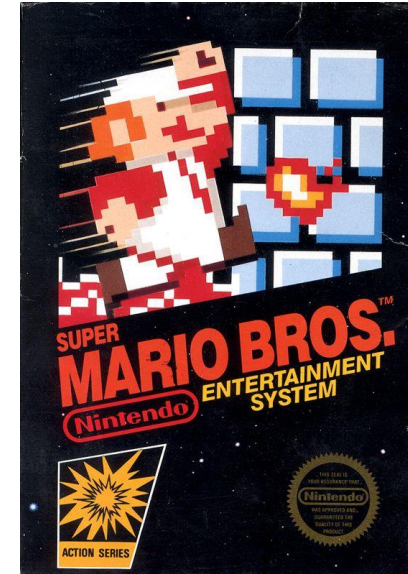

B- tier

- the ones I'm legally obligated to like
- i should've played more mario flash games tbh
- wait how did dragon quest iv get here

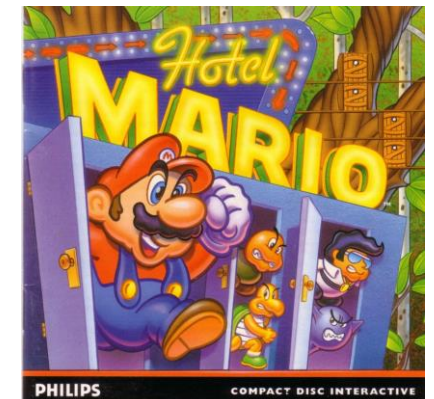

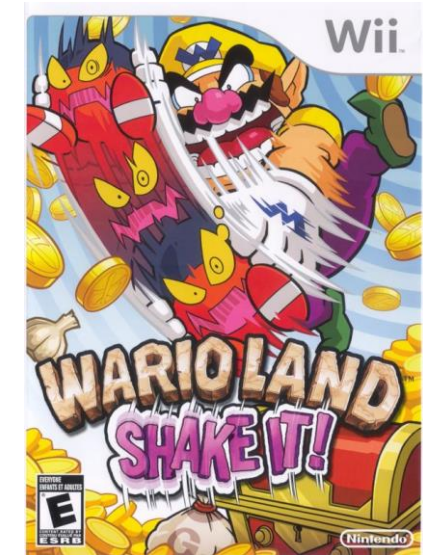

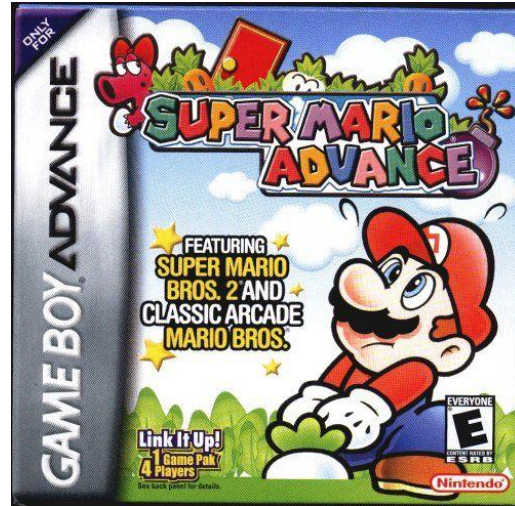

jerry, i think we need to split - tier

- they're good but like i'm not gonna pretend like they're my favorite mario
- you're allowed to like these ones

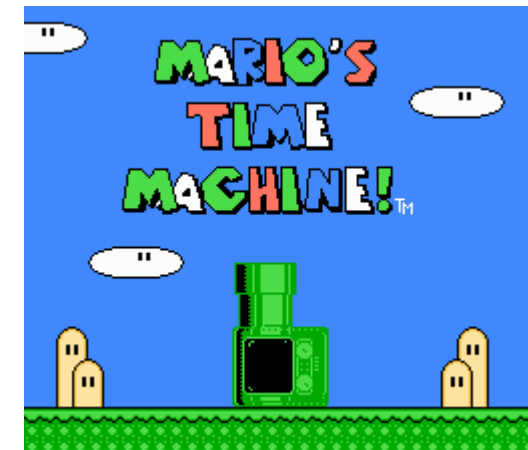

randy jackson memorial tier

- it's a no from me dawg
- erm, like the other wario land games are also in this tier

end it all

- i am not jokinhh
- i'll do it
- i'm gonna do it

- maybe I'll do a 3d mario ranking
- Play the fantranslation of linda cube again (psx, 1997), that's the best mario game
